Dear Charles,

I would like to thank you for the excellent job you are doing on the roofs at Oak Ramble, Three Palms, St James Place and Remington at Ponte Vedra Lakes, respectively.

The framed out presentation you gave to Walden is displayed on the wall at our corporate office. We are very proud of "Walden Red".

As for our meeting on October 8, 1998, it was very productive. I'm glad we were able to resolve all the issues, quickly. Our meeting could have been under better circumstances but it goes with the territory and you and Dick Lebedin were very professional and cooperative, which made for a pleasant and reassuring outcome.

I trust that you and Bill Emerich will work out all the details on a timely basis and again, I thank you for your efforts.

Very truly yours,
